### Cervical Medial Branch Block (MBB) - Upper

A 50 year old hairdresser complains of severe right neck and head pain. An explanation of the pain nerve supply in the cervical spine along with a detailed explanation of a cervical medial branch block is presented.

To find out more about this case history and to watch a cervical medial branch block performed as a minimally invasive diagnostic procedure for neck pain, WATCH the VIDEO on [Lowbackpain.tv](http://Lowbackpain.tv) and gain access to additional Patient Fact Sheets.
